EXTRACTS FROM SANITARY CODE

Section 32 . . .

(j). Whenever a parent or parents have specified that a dead fetus shall be buried, regardless of the period of gestation, or whenever the fetus has reached the sixteenth week of gestation, the fetus shall not be disposed of without a permit from the Department of Health.

Section 41. The body of every person who has died in the City of New York shall be buried, cremated or otherwise disposed of, within four days after the date of death; however, upon application by the funeral director, the Registrar of Records may extend the time limitation, and specify how long and under what conditions the body may be retained unburied.

Section 42. No interment, cremation, or other disposition, of the dead body of any human being shall be made in the City of New York without a permit therefor issued by the Bureau of Records and Statistics of the Department of Health of the City of New York or other authority as hereinafter in this section provided or otherwise than in accordance with the terms of such permit and the regulations of the Board of Health. . . . A permit issued by the department of health, health officer, registrar of vital statistics or other authorized person in any state of the United States may be accepted in lieu of the permit of the Bureau of Records and Statistics provided the name of the cemetery appears thereon. It shall be the duty of every person having charge of any cemetery, mausoleum, vault, tomb, or crematory in the City of New York, to file such permit as a permanent record.

**EXTRACTS FROM SANITARY CODE,
 CITY OF NEW YORK**

Sec. 38. No dead body of a human being, who has died in the City of New York, or any part thereof, shall be removed from the place of death without a permit for such removal from the Department of Health nor otherwise than in accordance with the terms of such permit and the regulations of the Board of Health.

Sec. 40. No person shall transport into the City of New York the dead body of any human being, or any part thereof, without having first obtained a permit therefor from the department of health, health officer, registrar of vital statistics, or other authorized person within whose jurisdiction the death occurred, nor otherwise than in accordance with the terms of the said permit and the regulations of the Board of Health of the City of New York. If the body is to be transported directly to a cemetery or crematory, a permit issued in any state of the United States shall be accepted with the same force and effect as though it had been issued by the Department of Health of the City of New York, provided the name of the cemetery or crematory is designated. If the name of the cemetery or crematory is not designated, such permit shall be exchanged for one issued by the Department of Health of the City of New York.

Sec. 41. The body of every person who has died in the City of New York shall be buried, cremated or otherwise disposed of, within four days after the date of death; however, upon application by the funeral director, the Registrar of Records may extend the time limitation, and specify how long and under what conditions the body may be retained unburied.

Sec. 42. No interment, cremation, or other disposition, of the dead body of any human being shall be made in the City of New York without a permit therefor issued by the Bureau of Records and Statistics of the Department of Health of the City of New York or other authority as hereinafter in this section provided or otherwise than in accordance with the terms of such permit and the regulations of the Board of Health. No manager, superintendent, or employee of any cemetery, mausoleum, vault, tomb, or crematory, or any other person shall assist in, assent to, or allow the interment, entombment, cremation or other disposition of any dead human body, or aid the preparation of or assist in preparing any grave or place of deposit for any such body unless such permit shall have been received. A permit issued by the department of health, health officer, registrar of vital statistics or other authorized person in any state of the United States may be accepted in lieu of the permit of the Bureau of Records and Statistics provided the name of the cemetery appears thereon. It shall be the duty of every person having charge of any cemetery, mausoleum, vault, tomb, or crematory in the City of New York, to file such permit as a permanent record.

**EXCERPTS FROM REGULATION 1,
 CHAPTER XIII, SANITARY CODE,
 STATE OF NEW YORK**

(2) The transportation by common carriers of bodies dead of any diseases other than those mentioned in subdivision 3 shall be permitted only under the following conditions:

(a) The coffin or casket shall be encased in a strong outer box made of good sound lumber, not less than $\frac{3}{4}$ of an inch thick. All joints shall be securely put together and the box tightly closed. Either the coffin or casket, or the outer box or case, shall be watertight. Every outside case holding any dead body offered for transportation by common carrier shall bear at least four handles and when over 5 feet 6 inches in length, shall bear six handles.

(b) When the destination cannot be reached within 60 hours after death, all body orifices shall be closed with absorbent cotton and the body placed at once in a coffin or casket which shall be immediately closed and the coffin or casket shall be prepared as indicated in subdivision (2-a) of this regulation.

(3) The transportation by common carrier of bodies dead of smallpox, plague, Asiatic cholera, typhus fever, diphtheria (membranous croup, diphtheritic sore throat), scarlet fever (scarlet rash, scarlatina), shall be permitted only under the following conditions:

All body orifices shall be closed with absorbent cotton, the body shall be enveloped in a sheet saturated with an effective disinfecting fluid and shall be placed at once in a coffin which shall be immediately and permanently closed. The coffin or casket shall be prepared as indicated in subdivision (3-a) of this regulation.

 EXTRACTS FROM SANITARY CODE,
 CITY OF NEW YORK

Sec. 38. No dead body of a human being, who has died in the City of New York, or any part thereof, shall be removed from the place of death without a permit for such removal from the Department of Health nor otherwise than in accordance with the terms of such permit and the regulations of the Board of Health.

Sec. 40. No person shall transport into the City of New York the dead body of any human being, or any part thereof, without having first obtained a permit therefor from the department of health, health officer, registrar of vital statistics, or other authorized person within whose jurisdiction the death occurred, nor otherwise than in accordance with the terms of the said permit and the regulations of the Board of Health of the City of New York. If the body is to be transported directly to a cemetery or crematory, a permit issued in any state of the United States shall be accepted with the same force and effect as though it had been issued by the Department of Health of the City of New York, provided the name of the cemetery or crematory is designated. If the name of the cemetery or crematory is not designated, such permit shall be exchanged for one issued by the Department of Health of the City of New York.

Sec. 41. The body of every person who has died in the City of New York shall be buried, cremated or otherwise disposed of, within four days after the date of death; however, upon application by the funeral director, the Registrar of Records may extend the time limitation, and specify how long and under what conditions the body may be retained unburied.

Sec. 42. No interment, cremation, or other disposition of the dead body of any human being shall be made in the City of New York without a permit therefor issued by the Bureau of Records and Statistics of the Department of Health of the City of New York or other authority as hereinafter in this section provided or otherwise than in accordance with the terms of such permit and the regulations of the Board of Health. No manager, superintendent, or employee of any cemetery, mausoleum, vault, tomb, or crematory, or any other person shall assist in, assent to, or allow the interment, entombment, cremation or other disposition of any dead human body, or aid the preparation of or assist in preparing any grave or place of deposit for any such body unless such permit shall have been received. A permit issued by the department of health, health officer, registrar of vital statistics or other authorized person in any state of the United States may be accepted in lieu of the permit of the Bureau of Records and Statistics, provided the name of the cemetery appears thereon. It shall be the duty of every person having charge of any cemetery, mausoleum, vault, tomb, or crematory in the City of New York, to file such permit as a permanent record.

EXCERPTS FROM REGULATION 1, CHAPTER XIII, SANITARY CODE, STATE OF NEW YORK

(2) The transportation by common carriers of bodies dead of any diseases other than those mentioned in subdivision 3 shall be permitted only under the following conditions:

(a) The coffin or casket shall be encased in a strong outer box made of good sound lumber, not less than $\frac{3}{4}$ of an inch thick. All joints shall be securely put together and the box tightly closed. Either the coffin or casket, or the outer box or case, shall be watertight. Every outside case holding any dead body offered for transportation by common carrier shall bear at least four handles and when over 5 feet 6 inches in length, shall bear six handles.

(b) When the destination cannot be reached within 60 hours after death, all body orifices shall be closed with absorbent cotton and the body placed at once in a coffin or casket which shall be immediately closed and the coffin or casket shall be prepared as indicated in subdivision (2-a) of this regulation.

(3) The transportation by common carrier of bodies dead of smallpox, plague, Asiatic cholera, typhus fever, diphtheria (membranous croup, diphtheritic sore throat), scarlet fever (scarlet rash, scarlatina), shall be permitted only under the following conditions:

All body orifices shall be closed with absorbent cotton, the body shall be enveloped in a sheet saturated with an effective disinfecting fluid and shall be placed at once in a coffin which shall be immediately and permanently closed. The coffin or casket shall be prepared as indicated in subdivision (2-a) of this regulation.
